

Hamilton Community Chest

Each year, hundreds of families use the network of support services available to them in our area as they work to support their families, feed their children, and make our community a better place to live.

Through generous donations from community members like you, the Hamilton Community Chest is able to impact the lives of families throughout our community. This year, the message from the local agencies we support is clear - the need is becoming greater. More families need help to keep the heat on. More families need supplies to keep their children fed. More families need support from local healthcare agencies.

More families need you.

Please consider making a gift to the Community Chest this year.

**Every dollar you give is a direct investment in
the people - the future - of our community.**

**Give NOW
to support
